HIV PREVENTION COMMUNITY PLANNING COMMITTEE (CPC)

CPC CO-CHAIRS—2004

Lynn M. Meinor, UDOH Co-Chair (801) 538-6198
John Cottrell, Community Co-Chair (801) 364-8098

Utah has one statewide HIV prevention planning committee with 26 members. CDC recommends that members of HIV prevention planning groups reflect the characteristics of the epidemic in the state. This means that for Utah the planning committee should be composed of individuals who represent men who have sex with men (MSM), injecting drug users (IDU), women at risk, youth, and ethnic populations (particularly Hispanic and African American). This representation can come from individuals in those categories, or from organizations which serve the populations listed. CDC also recommends that individuals with experience in social and behavioral sciences and/or experience in program planning and evaluation be included for effective committee representation. Applications for membership are taken in late summer/early fall of each year.
